NEWS PRESS RELEASE: FOR IMMEDIATE RELEASE

Please Don’t Flush Wipes, Paper Towels or Other Substitutes

The City of Lincoln City is issuing a guidance for those sheltering at home due to coronavirus concerns:

We are asking that you do not flush anything but toilet paper in your toilet. The only thing designed to be flushed through the sewer system is toilet paper. Customer’s sewer laterals are not designed to accept Wipes, Paper Towels or Other Substitutes, they are not biodegradable and can clog your lateral. City workers are seeing an even larger amounts of non-toilet paper products being used and it is causing problems. We ask you to only flush toilet paper and if you must use something besides toilet paper dispose of it in the trash. We appreciate your cooperation and understanding as we all work through this together.

Please call 541-996-1013 or email kmattias@lincolncity.org if you have questions.
